

Vote for ALISON JENNER for English Council

Why I am standing

Some former English Council members were irregular in their attendance and I have been a consistent and conscientious attender since becoming a South Central region representative.

The current Council has been a huge improvement on the previous version. The new Chair has set a good example of managing a committee. The administration is now professionally run. But there is more to be done. I am currently a member of English Council Executive.

Members of EC should:

- Be scrupulous in attendance; transparent and accessible to members.
- Promote free expression and respectful debate in the true liberal tradition.
- Exercise impeccable judgement and improve their own understanding of the Constitution and Standing Orders in practice.
- Take important decisions on governance, candidacy, training, co-ordination of local parties, according to the needs of local parties and the region as a whole.
