Liberal Democrats

# Martin's Plan for M+RE

The Mayor of Hampshire and the Solent has a wide-ranging remit and huge influence, as well as a veto over any significant proposals for the region. Says Martin: *"No one person can know what's right for everywhere in the region. So if selected, I will be holding member meetings in every local area to make sure we have a plan for MORE that works for every part of the mayoralty. That said, as these topics matter greatly to me, I'll want to discuss them"*

**Martin**  
for  
**mayor**

## M+RE for the environment

Lib Dems have led the way on practical environmental initiatives. Now we need to go faster to cut carbon and cut pollution in the air, rivers and seas - to tackle the crisis in nature

## M+RE Affordable homes & infrastructure

The Mayor must work with councils to get the right homes in the right places. We must end unplanned development that fails to provide the infrastructure and the affordable homes we need.

## M+RE action on health

The NHS is being re-structured to mirror the Mayoralty. That's a green light for the Mayor to insist on a better plan for the local NHS in our communities

## A M+RE thriving economy

There's an opportunity to both fuel innovation and growth in our strongest sectors while also working on regeneration, transport and skills - to ensure nowhere is left behind

## M+RE green transport revolution

Right across our region, we're being held back by our transport. Everything has to improve: buses, trains, ferries and safe routes for cyclists and pedestrians

## M+RE Lib Dem values everywhere

At a time when there's a push for centralising everything, we need a Mayor who will fight to keep decision-making as local as possible. And who will keep listening to YOU.

*These are just the headlines of Martin's mayoral policy priorities. For a longer read, more about Martin's Plan for MORE and an invitation to ask him a question about policy - see <https://www.martin4mayor.org.uk/more>*
