BEN DOWLING

FOR MAYOR OF HAMPSHIRE AND THE SOLENT

TO WIN ELECTIONS AT EVERY LEVEL

Ben will run a winning mayoral campaign that helps us to win council seats in 2026 and, as Mayor, Ben will raise our chances as a party across the whole region for council elections in 2027.

FOR AFFORDABLE HOMES

Everyone deserves a decent place to live; that's why we need better, more affordable homes. Ben will not just build more homes, but create new communities complete with the schools, GP surgeries, and other facilities to go with them; meeting our housing needs and providing thousands of new jobs.

FOR TRANSPORT THAT WORKS

People deserve to be able to get around quickly, affordably, and comfortably. Ben will improve our road networks, expand bus services, speed up train journeys, make ferry crossings reliable, create cycle-friendly cities and invest in net-zero technologies.

FOR SUSTAINABLE GREEN GROWTH

We need to put sustainability at the heart of every decision made for our region, not treat it as an afterthought. We must use the skills, innovation and world-leading ideas we have in our region to drive economic growth and make people's lives better.

CAMPAIGNER

Ben has been winning tough elections since he beat UKIP as a first-time candidate – when many Lib Dems lost their seats. He's been an active campaigner for over a decade. Ben knows how to build strong teams, energise new volunteers, and take on the other parties. That's exactly what we need to win this election.

COMMUNICATOR

Ben makes complicated issues simple and brings people together. Whether it's residents, young people, or CEOs, he connects with people and earns trust. He's built his career on listening and leading. As Mayor, Ben will speak up for the communities who feel unheard and help our region find its voice.

ENTREPRENEUR

Ben co-founded an award-winning education non-profit now working across the UK. He's already brought investment into Hampshire and creates real opportunities for young people. As Mayor, Ben will bring the same energy to solving problems, growing our economy, and making change happen.
