

TIME IS RUNNING OUT!

to vote for **Jack Davies**

About Me

I'm a councillor in the New Forest and a life-long resident of Hampshire. I come from a traditional working class family. My Dad worked in a factory until it shut down and I grew up working on the family market stall. After my Dad passed away from cancer when I was 18, I got a degree in International Relations from the University of Southampton - the first of my family to go to university.

As a councillor since 2016, I've fought for truly affordable housing, improved bus services, and secured investment to revive neglected communities. I'm young, working class, and determined to get a fair deal for every community.

Why I'm the best candidate to beat Reform

✓ **YOUNG AND WORKING CLASS**

I'm young, working class, and speak plainly - the kind of candidate who appeals to Reform voters. I can connect with neglected communities and offer them real hope.

✓ **A RECORD OF DELIVERY**

As a councillor, I've fought for truly affordable housing, improved local bus services, and secured investment in forgotten areas - proving I don't just campaign, I deliver.

✓ **GRASSROOTS CAMPAIGNER**

I'm an old-school campaigner who prefers pounding pavements to policy lectures. I listen, work hard and get things done. I'll always stand up to power and privilege.

HOMES PEOPLE CAN ACTUALLY AFFORD

Everyone deserves a safe, secure home - but too many local families and young people are being priced out of the communities they grew up in.

I'll push for genuinely affordable homes, built in the right places, with the right infrastructure.

That means more social housing, support for first-time buyers, and strong local design standards - so that new homes help our communities thrive, not just developers' profits.

FAST AND RELIABLE PUBLIC TRANSPORT

Public transport is a lifeline for people who cannot drive and it reduces traffic on our roads - but too many services have been cut, leaving people and communities isolated.

I'll fight for joined-up timetables, half-price tickets for young people, and investment in transport infrastructure.

That means a fast, reliable public transport system that makes it easier for people to get where they need to go.

WELL-PAYING JOBS IN RURAL COMMUNITIES

People shouldn't have to move away or commute for hours just to earn a decent living.

I'll back investment in rural skills, support for local businesses, and digital infrastructure so our communities can grow their own economies.

That means supporting green jobs, apprenticeships, and co-working hubs - so that villages and market towns can thrive, and the next generation can build a future close to home.
