collaborative but decisive style

**STRONG CREDIBILITY**

Experience and networks span business,  
politics and communities

Vote **Martin TOD** as **your #1 Mayoral Candidate** to win for **Liberal Democrats** **#1**

# Input to my PLAN to deliver M+RE for our region

The Mayor of Hampshire and the Solent has a wide-ranging remit and huge influence, as well as a veto over any significant proposals for the region. No one person can know what's right for everywhere in the region - and I'm already hearing brilliant ideas from local Lib Dems. If selected, I will hold member meetings in every area, set up advisory groups and hold online meetings on key topics - to make sure we have a Plan for MORE that works everywhere.

Please let me know your views and ask me any questions at: [martin@martin4mayor.org.uk](mailto:martin@martin4mayor.org.uk)

# Martin for more

## M+RE Affordable homes & infrastructure

The Mayor must work with councils to get the right homes in the right places. I believe we must end unplanned development that fails to provide the infrastructure and the affordable homes we need.

## M+RE for the environment

Lib Dems have led the way on practical environmental initiatives. I will be pushing to go faster to cut carbon and cut pollution in the air, rivers and seas - to tackle the crisis in nature

## A M+RE thriving economy

As Mayor, I would drive innovation, green growth and jobs in our strongest sectors, while making sure that we have the regeneration, transport and skills to ensure nowhere is left behind

## M+RE action on health

Too many local people have poor health for preventable reasons. As Mayor, I would work with the NHS and local government to get a better, more joined up plan for health and care.

## M+RE Lib Dem values everywhere

Photo reproduced with kind permission of Richard Murphy

At a time when there's a push for centralising everything, I will be the Mayor who will fight to keep decision-making as local as possible. And one who will keep listening and collaborating with YOU.

## M+RE green transport revolution

It's unacceptable that our region is being held back by our poor transport. I think everything has to improve: buses, trains, ferries and safe routes for cyclists and pedestrians
