

In detail:

Manifesto – English Council of the Liberal Democrats

Dr. Renu Raj

Concerned. Committed. Confident.

I am standing for election to the **English Council of the Liberal Democrats** to contribute my experience, integrity, and commitment to strengthening our party's values, governance, and inclusivity across England.

Why I Am Standing

As a British citizen based in London, with extensive professional and community experience, I believe the English Council plays a vital role in ensuring that members' voices are heard, diversity is respected, and Liberal Democrat principles are reflected in decision-making at every level.

I bring a strong understanding of:

- Ethical leadership and good governance
- Listening to members and encouraging constructive dialogue
- Working across cultures, communities, and generations
- Resolving differences through cooperation rather than division

My Priorities

- **Stronger Member Engagement:** Ensuring members across England feel informed, represented, and valued in party structures.
- **Diversity & Inclusion:** Supporting equal participation and representation across gender, ethnicity, age, and professional backgrounds.
- **Transparency & Accountability:** Upholding high standards of conduct and openness within party processes.
- **Collaboration Across Regions:** Encouraging constructive cooperation between local parties, regional bodies, and the federal party.
- **Future-Focused Leadership:** Supporting policies and practices that reflect modern England while staying true to Liberal Democrat values.

What I Will Contribute

- Calm, balanced, and principled decision-making
- Respectful engagement, even where views differ
- A commitment to ethical standards and the Party's Code of Conduct
- Time, energy, and professionalism in serving members

My Commitment

If elected, I will serve with integrity, humility, and dedication — putting the interests of members and the values of the Liberal Democrats at the centre of my work.

Together, we can strengthen our party for today and for the future.
